INTRODUCTION TO PSYCHOMETRIC THEORY (HARDBACK)

Taylor & Francis Ltd, United Kingdom, 2010. Hardback. Condition: New. Language: English. Brand new Book. This new text provides a state-of-the-art introduction to educational and psychological testing and measurement theory that reflects many intellectual developments of the past two decades. The book introduces psychometric theory using a latent variable modeling (LVM) framework and emphasizes interval estimation throughout, so as to better prepare readers for studying more advanced topics later in their careers. Featuring numerous examples, it presents an applied...

Reviews

I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
